Province of South Cotabato

Dear Mr. Aquino,

Greetings of Peace!

We are fourth year BSIT students from Notre Dame of Marbel University, currently enrolled in the Capstone Project and Research 2 course. After our initial information-gathering with your office, we have successfully developed our project, **“ResilientLink: Integrated Disaster Aid and Fundraising Management Application with Public Alerts and Real-Time Weather Updates.”**

As part of our study’s evaluation phase, we are now seeking to assess the usability of our system. To ensure a comprehensive assessment, we are requesting permission to conduct a brief survey with relevant personnel in your office. This survey, based on the System Usability Scale (SUS), will provide valuable insights into the user experience and help us refine the system to better meet the needs of end-users.

We assure you that all responses will be kept confidential and used solely for academic purposes. Your office’s participation in this survey would greatly contribute to the quality and effectiveness of our project.

Thank you for considering our request. We look forward to your positive response.

Sincerely,

**RONELLA JANE T. CARBON**

**HENZBELY JUDE R. SADABA**

**JOHN REY C. SEGUMA**
